EXAMPLE SCHOOL DEVELOPMENT AND IMPLEMENTATION PLAN DOCUMENTATION

1   Introduction

1.1   There is no nationally prescribed format for a School Development Plan or School Improvement Plan, so a number of LEAs have issued detailed guidance for their schools on what it should contain. This guidance varies from LEA to LEA and practice, in terms of actual plans, also varies significantly from school to school. This makes it difficult to provide consistent guidance that can be applied, like the Standard, on a national basis.

1.2   However, to provide a bit more assistance for schools to accompany the Toolkit, IPF has drawn together examples of real School Development and Improvement Plans from an Infant and a secondary school, representing opposite ends of the organisational spectrum. These represent good practice and are useful examples for schools to consider. However, they could still be improved further (see notes below) by comparison with the IPF guidance set out at Summary S1.5 the School Development Plan. All reference to the individual schools has been removed.

2   School Development Plan

2.1   By comparison with the guidance in the Summary, the following points are noted:

- IT/ICT Development Plan – No reference to a specific plan for this area and coverage in the SDP is light. However, in this case it could be a reflection of this being from a small school.
- Where are we now? – The follow up to the Ofsted report is a separate section at the back of the plan rather than integrated with the individual targets within the rest of the curriculum plans etc.
- Achievements - Not covered in as much detail as might be expected
- Reasons for change - Not that clear nor as specific as we would recommend at a secondary school. It includes the aim "To improve individual pupils attainment and progress by monitoring personal development", but says nothing more specific in terms of actual SATS scores for example.

- Future plans – Relatively simple, which might be appropriate for a small school, but would need to be more detailed for a larger one.
- Financial implications – Not included in the example to help make the example anonymous, but the space where financial implications would be recorded remains to emphasise that it is good practice to link plans to resource usage.

3   **School Improvement Plan**

3.1   The example school improvement plan is very clear and logical and compares well with the guidance in the Summary except that there is no reference to the impact that the action plans will have on the budget.

CONTENTS

Aims of the Strategic School Development Plan

The Strategic School Development Plan aims to 'raise achievement for all learners' (LEA Educational Development Plan)

The plan combines:

A) The Strategic Development Plan – developing pupils who are 'Hungry for Learning'

with

B) An operational School Development Plan – improving and maintaining high standards already achieved.

SECTION A

Strategic
School Development Plan

Section A.   Strategic Development Plan 2003-2004

We aim to develop children who have a thirst for knowledge and are 'Hungry for Learning'.

We have three areas for further development.

S1. To develop children's learning

S2. To develop creative opportunities for staff and children

'**Pupils who are Hungry for Learning**'

S3. To enable children to develop personally

Strategic Development Plan

Targets	Action to Achieve Vision 2003/04	VISION
S1 To develop Children's Learning	**S1** • All staff to attend training on accelerated learning. • To review teaching and learning policy	
S2 To develop Creative Opportunities for Staff and Children	**S2** • Arts Week Spring 2004 • Team Teaching	**'Pupils are Hungry for Learning'**
S3 To enable children to develop personally.	**S3** • Monitor group and individual (personal, social needs) • PSHE policy into practice.

APPENDIX ONE
EVALUATION OF TARGETS
2002/2003

EVALUATION OF CURRICULUM IMPROVEMENT TARGET 2002/03

<u>**TARGET**</u> **S1: Learning**

<u>**Objective:**</u> To improve the quality of learning for all children.

EXAMPLE

<u>**Success Criteria:**</u>

- Identify impact of 'mind-mapping' as learning strategy through discussion with pupils-determining knowledge of retention
- Policy review outlining best teaching and learning strategies
- Information required to further develop teaching and learning strategies
- More learning opportunities created for outdoor classroom

<u>**ASSESSMENT OF SUCCESS**</u>

<u>**What changes have been brought about?**</u>

- 'Mind mapping' introduced and used as a tool for teachers and children to share thinking and clarify learning objectives.
- Clearer learning intentions shared with children improving teaching and learning.
- 'Plan, Do, Review' system in place in all year groups developing independent learning and self-discipline.
- Team-teaching activities have improved the identification of next learning steps for all pupils including intervention groups of more able and SEN children.

<u>**What is the impact on children's learning?**</u>

- Learning culture further developed with the use of Plan, Do, Review throughout the school.
- Teaching strategies in Numeracy and Literacy hours extended to foundation subjects e.g. highlighting learning objectives and self-evaluation.
- Target setting and tracking for all pupils with evidence in ROAs has improved the pace of learning.

<u>**Any lessons to be noted for future reference?**</u>

- Team teaching in Y1 and Y2 consolidated good practice.
- Learning objectives need to be on display and/or clear in children's minds for all lessons.

<u>**Any further action required?**</u>
- Teaching and Learning Policy to be reviewed Summer 2003
- Exploration of more learning opportunities for outdoors for all year groups.
- More self assessment opportunities to be created for pupils e.g. ICT

Evaluation of OfSTED Action Plan
Improvement targets

OFSTED ACTION PLAN addressing issues raised through the Ofsted Inspection - January 2002

IMPROVEMENT TARGET	ACTION	TIME SCALE	MONITORING/ EVALUATION	SUCCESS CRITERIA
1. Improving pupils' reading further by improving their skills at finding information from books.	1. To make more use of the existing library by:- a) Introducing a system of weekly visits by all children to borrow books. b) Devising schemes of work for referencing skills (including ICT). c) Drawing up a timetable for whole class focused teaching in the library. 2. To set up links with Virginia Water library for visits etc. 3. To analyse results of reading tests and teacher assessments to evaluate improvement in reading standards. A FEASIBILITY STUDY: A working party of governors and staff to be organised to look into the feasibility of developing a new library/ICT suite and formulating an action plan to: a) Decide on the positioning of a new suite. b) Acquire estimates for building and resourcing the new suite. c) Investigate financing the project through the delegated budget and grants available.	March 2002 September 2002 September 2002 September 2002 July 2003 If feasible, project to be completed by September 2003 July 2002 October 2002 November 2002	Head teacher to monitor use of lending library service. Head teacher and English co-ordinator to monitor development of research skills through classroom observations, work sampling and standardised assessment. Result analysis presented to Curriculum governors' meeting for evaluation in Autumn 2001. Feasibility study presented to full governing body for evaluation, November 2000.	• All pupils have access to the library and are taking books home regularly. • Pupils able to access information independently and demonstrate knowledge of library system. • Further improvement in reading standards, measured by comparison of year on year assessment results. • A new library and ICT site has been developed.

2. Recording and monitoring pupils' personal development where factors affect attainment and progress.	a) Devise a policy for formal monitoring of personal development for all pupils, particularly quiet children. b) Staff to implement policy e.g. through circle time.	December 2002 December 2002	Personal development policy to be presented to Governors Spring 2001. Head teacher to monitor implementation of policy and its impact on attainment through class observations and analysis of end of year results in July 2001.	• Pupils' personal development formally monitored. • Pupils able to express themselves confidently and interact well with peers and adults. • Personal development of pupils having a positive affect on attainment.
3. Ensuring that school development plan initiatives are linked wherever possible to improvements in pupils' learning.	a) Focus on objectives in curriculum targets in SDP, linking them to measurable improvements in pupils' attainment, e.g. English: To increase Level 2 reading SATs 2001 by 4% through focusing on specific areas of teaching and learning. b) Develop final year of 3 year SDP with staff and governors.	May 2002 June 2002	Governors to evaluate school improvement and raising standards in pupils' learning through measurable criteria in Year 3 of SDP. (Autumn 2001)	• SDP initiatives linked to measurable pupil attainment. • Governors more able to measure raising of standards through SDP. • Standards raised.
4. Teaching about the ways of life of different ethnic groups in Great Britain needs more emphasis.	To review multi-cultural policy to ensure clear outline and direction of multi-cultural education. To review planning and resources to capitalise on opportunities for multi-cultural education. More visits and visitors planned.	March 2002 March 2003 Academic year 2002/2003	Revised policy presented to Governors 2001. Head teacher and co-ordinator to monitor planning and observe lessons on multi-cultural education Summer 2001.	• Children able to recognise and discuss similarities and differences in other cultures within the UK, showing improved knowledge and understanding.
