

Medical Service Plan

**The University of Texas
of the Permian Basin**

Updated September 2016

Additional Health Insurance Option

Personal health coverage is the responsibility of each individual student. Students are encouraged to carry health and accident insurance. The University of Texas System Health Insurance is a comprehensive insurance plan designed to cover hospitalization and treatment for more serious health problems. For students interested in purchasing this additional health coverage, the insurance policy information is available under the U.T Permian Basin Section at <https://utpb.myahpcare.com>. This insurance meets the insurance requirements for international students.

For more information about the Medical Services Plan, contact the Office of Senior Associate Vice President for Student Services at (432) 552-2600

Medical Service Plan for UTPB Students

Plan Operation

The plan is designed to provide student's basic primary healthcare needs in an outpatient setting. The health care provider listed will provide medical services to eligible UTPB students at their office. Medical services will be provided as deemed medically necessary by the treating physician. The medical service fee paid at registration and a co-payment at each clinic visit covers the costs of services provided under the plan. **The medical service plan does not cover online only students or dual credit.**

Utilization Procedure and Policies

1. Visit the Medical Center Health System Providers
2. Present your UTPB Student ID card and another form of picture identification.
3. The Clinic personnel will verify your eligibility.
4. Pay the co-payment at the time of the visit.
5. If you have health insurance, it is not necessary to use it for services covered by this plan. Of course, it may be used for services not covered by this plan. The clinic will work to file all health insurance plans.
6. Plan coverage will extend for the first day of classes of the semester for which the fee is paid up to the first day of classes of the following semester. In case of late registering students, the plan is in effect beginning the day following payment of fees.
7. During the summer session, a student is considered registered and eligible for the plan if tuition and fees have been paid from the first class day of the summer session up to the first class day of the fall semester. Students who pay their summer session after the first class day are eligible for the plan the day after the fee has been paid.
