Construction Proposal Template Features and Facts

Construction Proposal Template allows you to create a customized proposal or contract for your construction or building project. The template has 1 column on the body part and calculations must be done manually.

The construction proposal template offers an intuitive blank form for you to fill in the details of your contract or proposal. It can be used by a subcontractor or a supplier. The form does not calculate totals, giving you the ability of filling in figures manually.

The sample building proposal template was original released as an example of customizing the default sales invoice template shipping with Uniform Invoice Software. It looks very different from the original template, yet Uniform Invoice Software can handle this form without problem. The construction proposal template is in Microsoft Excel format. It can be used as a construction bid proposal template. Microsoft word construction proposal template, on the other hand, while as easy as the Excel format on formatting a contract or proposal, lacks the ability to further processes numbers and figures as Excel.

InvoicingTemplates.com offers this as a construction proposal template free download. As always, the contractor proposal template also has a Uniform Invoice Software version, which you can download for free from the download page too. The free construction estimate template or construction contract template has many static text labels on it, which you must replace with your own text before you can create your first construction proposal, contract or estimate. To do this, you first have to unprotect the Invoice worksheet.

The protection of the Invoice worksheet in **Construction Proposal Template** prevents accidental modifications to layouts and formulas. If you have Uniform Invoice Software installed, it could even display a warning message when you close a template without protecting the invoice worksheet. However for the purpose of this sample, we should firstly unprotect the Invoice worksheet in **Construction Proposal Template**.

Once the construction proposal form is unprotected, you start to type in your text to replace the default labels. Once finished, you have a simple yet effective tool for creating your professional and beautiful construction proposal / contract / estimate that is specific to you and your business.
