- Category B

ADDITIONAL INFORMATION

- Presentations and Conferences** Published more than 80 professional and scientific papers most in the health and pharmaceutical informatics field and took part in many international conferences related to the health informatics field and got insight in internationally successful hospital information systems (HIS), as well as in development trends of information systems in general. I have presented papers at the international congresses on informatics, medical informatics and pharmaceutical conferences in Amsterdam, Haag, Washington, Brussels, Helsinki, Oslo, Glasgow, Vienna, Sydney, Singapore, Barcelona, Cairo. I also took the part at many congresses and conferences in Croatia, presenting works and lectures from the field of informatics.
- Projects** Within this main line of professional activities, I designed and run the projects of several „in house“ developed programming tools for application SW development, with the emphasis on medical applications (data entry systems, text processing, registers, departmental medical applications, etc.). I also had main impact in organization of business applications design in the hospital environment (hospital billing, accounts payable/receivable, general ledger, human resources, salaries, inventory, etc.). Later on, I took part in development such applications in other institutions and companies.
- Developed and projected the entire information system for the wholesale pharmacy, and later I applied my experiences to the SAP ERP implementation for the wholesale pharmacy (MM, SD, MM-IM, FI, CO, FT, partially QA and HR). I also implemented the Warehouse Management System (WMS) to the wholesale pharmacy warehouse, and structured and designed an interface to the SAP.
- In Magma retail company I was responsible for ICT and Logistics and development of all the business processes. I was also a team leader for introducing SAP (FI/CO, TV, CM, HR, MM) and also upgraded the existing WMS.
- Seminars** Had several short term missions in France (Grenoble, Paris, Lyon, Bordeaux) in 1981 and 1982, and in Netherlands (Leiden). In 1992 I was granted with two months research scholarship in the Institute for Health Informatics and Statistics in Graz, Austria.
- Honours and awards** Awarded with Informatics plaquette (2002) in recognition of contribution to informatics in Croatia.
"Josip Lončar" award as the best student in the generation.
- Memberships** I was a secretary of the Croatian society for medical informatics, a secretary of the Committee for Health Informatics in the Association of Croatian Health Organizations, and a member of the Professional Committee of the Ministry of Health. I am also vice president of the Croatian Information Technology Society (HIZ).
