

Alumni Ph.D. Bio Questionnaire

This information will be used to compile a list of alumni graduate student profiles which will be advertised on the Pharmaceutical Outcomes and Policy web site. The aim of this initiative is to market the talent of our past PhD students to the public with the hopes of increasing placement rates and for the benefit of prospective "POP" PhD students as well.

Please complete any applicable sections and submit your completed questionnaire to Kathryn D. Eclar, Academic Programs Coordinator, keclar@cop.ufl.edu. Thank you for your help!

Name and credentials:

Previous degrees (degree, school, year):
e.g. MPH, University of Florida, 2009

Hometown:

Brief Statement about your current research interests (2-3 sentences):

Current/Past employment after receipt of PhD:

Example:

1. Company
 - a. Position/role
 - i. Description of position/role:

Publications (identify no more than three papers that you feel reflect your best work):

Teaching Experience (if you are involved in teaching at the professional or graduate level, tell us what you presently teach):

Professional Memberships (If you hold/held an officer position or another distinguished position, tell us about it):

Academic Events (identify no more than three presentations you've given during professional/research meetings that you feel reflect your best work):

Grants (identify no more than three grants that you feel reflect your best work):

Awards (research, teaching, or service):

Web site:

E-mail:

Would you like your student photo included in your bio? If yes, please attach a .jpg photo to be included.

Now this is the really important section since one of our goals is to use your story in attracting outstanding applicants to our programs. Please be brief (no more than four or five sentences), but tell us:

How our program of graduate study was instrumental in helping you achieve your objectives?

Why would you recommend that others should consider joining one of the programs of graduate study in the Department of Pharmaceutical Outcomes & Policy?
