

Recruitment - Service Level Agreement

This Service Level Agreement (SLA) is intended to streamline the recruitment process and set out the expectations of the various teams involved in the recruitment process, i.e., recruiting managers, finance as well as the recruitment and e-rostering teams. It is expected that adherence to the timescales listed within the SLA will allow us to meet our agreed performance indicators.

The SLA was developed following discussions with the workforce team, finance and managers across the Trust. It includes tips for managers to highlight matters they may or should consider at various stages of the recruitment exercise.

The SLA has been amended to reflect changes in practice, agreed through the recruitment project planning group, which support a transparent recruitment process and the implementation of the Trust Buddy scheme to support the onboarding process.

Please note that the medical recruitment process can vary from the steps detailed in the SLA. However, we would expect the same principles to apply.

If you have any queries or comments regarding the SLA, please contact the recruitment team, Kiera McKeown (Recruitment Team Leader) or Emma Bright (Head of Recruitment and Resourcing)
