

Retirement Savings Calculator

Will you have enough money to enjoy a worry-free retirement?

Use our Retirement Savings Calculator to determine if your financial plan is on track to provide you with enough savings in your retirement. Decide on how much money you would like to withdraw each month during your retirement, and, with the help of our calculator, determine whether you are saving enough or whether you need to save more to play catch-up.

How to Use the Calculator

1. Complete the required fields.
2. Click on the "Calculate" button to calculate your result and display a graph.

Retirement Savings Calculator

Use this calculator to determine how long your retirement savings will last, based on your income requirements

How long will my savings last in retirement?

Retirement savings	<input type="text" value="R0.00"/>
Monthly income after tax	<input type="text" value="R0.00"/>
Expected investment returns	<input type="text" value="0%"/>
Assumed inflation	<input type="text" value="0%"/>
My tax rate	<input type="text" value="0%"/>
<input type="button" value="Calculate"/>	
Monthly income before tax	<input type="text" value="R0.00"/>

This calculator displays a graph to show you how long your savings will last in retirement. The graph also shows how the scenario changes when taking different inflation numbers into account.

The Retirement Savings Calculator is available on our website www.stanlib.com.
