Work History

ABC Hospital (*Delaware's second-largest healthcare system*) | Sometown, DE

Medical Laboratory Technician, 6/11 to Present

- Assist hospital physicians in the diagnosis and treatment of illnesses, injuries and medical conditions by providing clinical testing and specimen analysis.
- Conduct lab tests in the areas of hematology, coagulation, urinalysis, serology, immunology, bone marrow and FNA collections.
- Prepare chemical solutions, reagents and specimens for microscopic examination; perform laboratory tests; analyze and report findings; and investigate atypical results and discrepancies to determine causation.
- Expedite critical testing results without compromising sample validity or quality assurance.

DEF Medical Center (*nonprofit healthcare provider serving the Sometown area*) | Sometown, DE

Medical Laboratory Technician, 9/10 to 6/11

- Performed lab analyses to provide data for diagnosis, treatment and prevention of disease.
- Recommended improvements to supply ordering and inventory management that increased efficiency and lowered costs (saving approximately \$5,000 annually).
- Stringently followed lab protocols, sanitation standards and testing procedures.
