

# Flashcard Sizes

Flashcard sizes are often taken for granted but are actually very important if you're creating your own. The sizes of flashcards matter since the extent of details that they can hold varies, especially if they're designed for young children.

## Flashcard Sizes Standard

### Standard

The most common size of a flashcard is 3 inches by 5 inches. This size is followed by read-made flashcards and is also the default flashcard size for design software.

### A6

The dimensions of an A6 flashcard are 105 x 148 mm. This is a quarter of an A4 sheet of paper, which is small enough to easily stack and carry around.

## **A7**

A7 flashcard size is 74 x 105 mm. This is 1/8 of an A4 page or sheet of paper and is the smallest among the standard flashcard sizes.

## **Large**

A large flashcard size measures 5 inches by 7 inches and is commonly used for early education, such as preschool and kindergarten. Bigger flashcards can easily catch children's attention.

## Flashcard Sizes for Digital – Social Media

Today, people are more conscious of paper waste, hence digital flashcards became a thing. People opt to use digital flashcards in sizes 3×5 inches or 5 x 7 inches. There is also a digital flashcard maker where you can customize the size of your flashcard depending on your need.

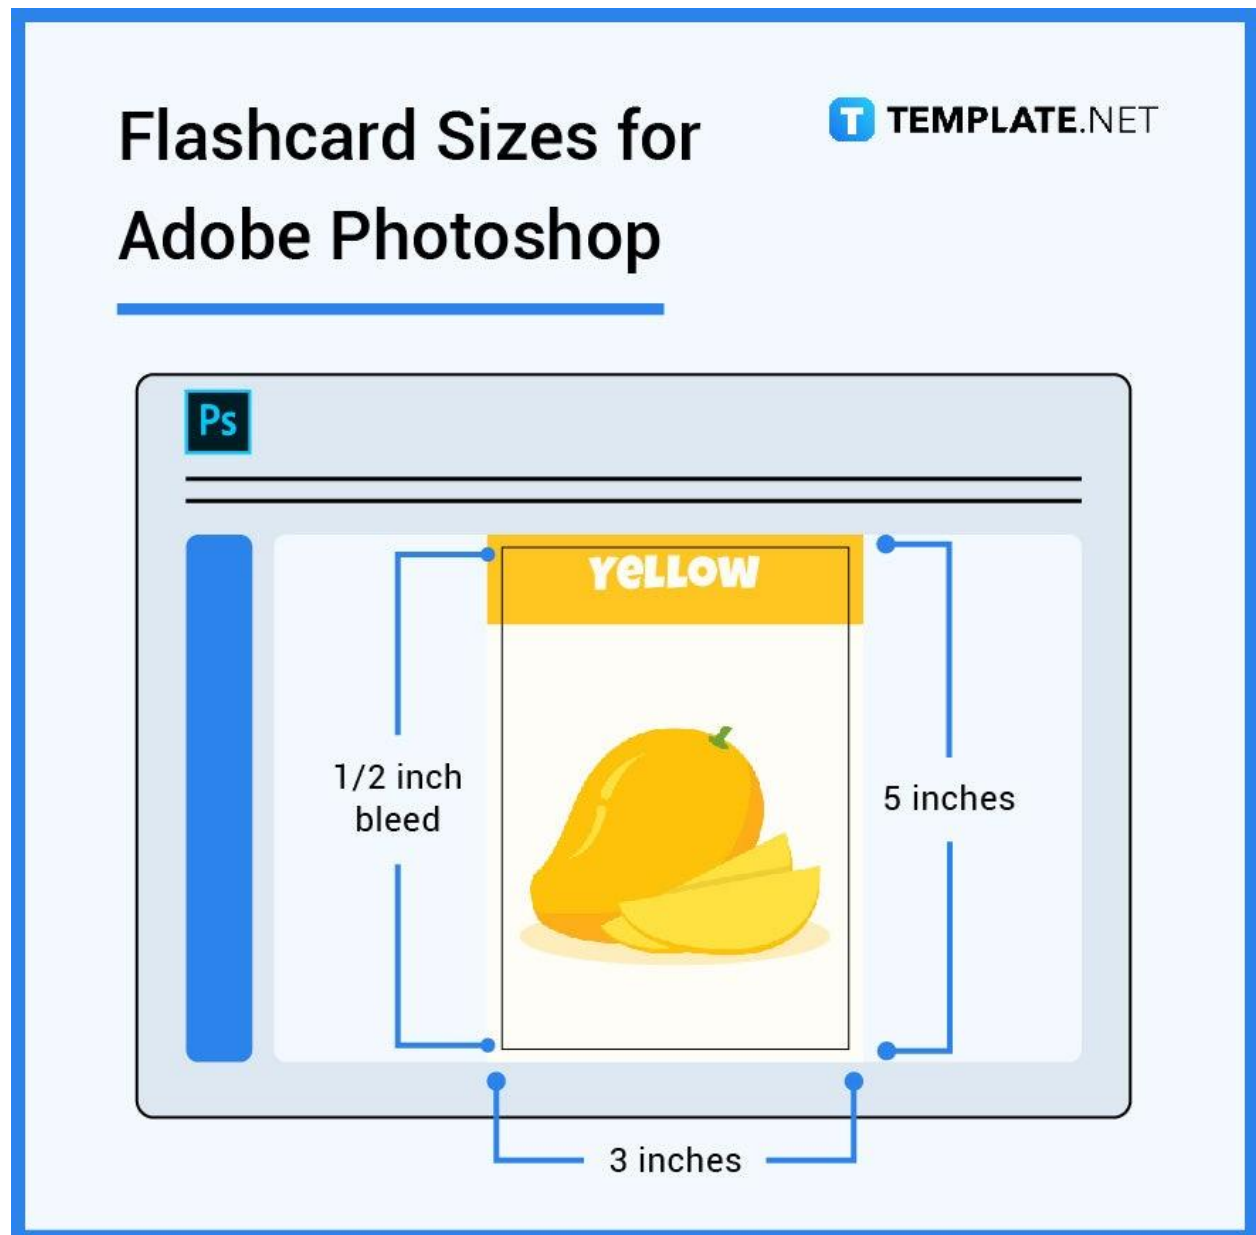

# Flashcard Sizes for Print

Flashcards in their printed form are an efficient and reusable tool for learning, testing, and memory improvement. Flashcards can follow the standard sizes of 3 in x 5 in for Standard, 105 x 148 mm for A6, 74 x 105 mm for A7, and 5 in x 7 in Large. The printed flashcards are more extensive and creative and allow the option to create engaging and interactive flashcards.

| Flashcard Sizes for Print |                     | TEMPLATE.NET |
|---------------------------|---------------------|--------------|
| TYPE OF FLASHCARD         | SIZES (in & mm)     |              |
| Standard                  | 3 inches x 5 inches |              |
| A6                        | 105 mm x 148 mm     |              |
| A7                        | 74 mm x 105 mm      |              |
| Large                     | 5 inches x 7 inches |              |

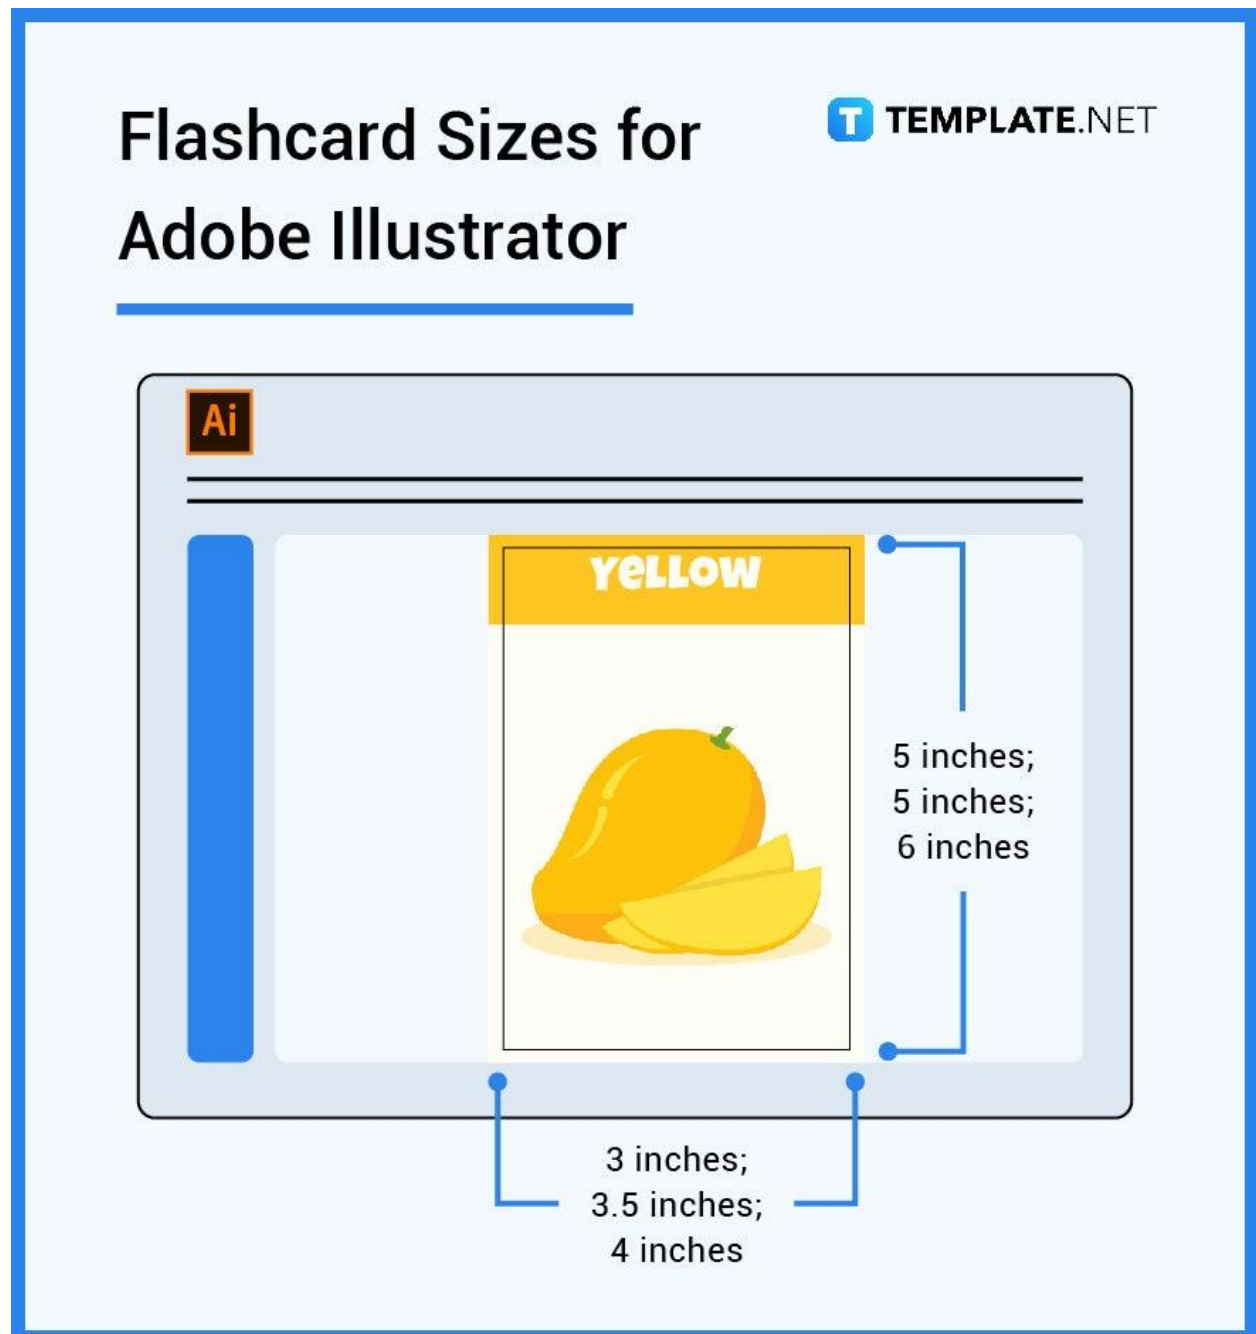

## Flashcard Sizes for Adobe Photoshop

In making your own flashcard in Adobe Photoshop, you may set the size at 3 inches wide by 5 inches high. You may also add a half-inch to an inch for bleed. This will provide you with more than enough room for your content without making the layout look cluttered.

## Flashcard Sizes for Adobe Illustrator

Making your own flashcard in Adobe Illustrator allows you to customize and personalize your output depending on your needs and wants. You may set the dimension on its standard size of 3" x 5", or customize other sizes like 3.5"x 5" or 4" x 6" with bleed.
