

Funeral Sizes

Funerals are delivered in various ways based on different religions and cultures, including the proper clothing or dress code (usually a casual black outfit or white attire). Let's find out how you can create funeral programs in different funeral sizes in mm, cm, inches, or pixels from our magnificent funeral templates.

Funeral Sizes Standard

Funeral Program

In addition to a brief biography that provides details on the deceased, a good funeral program template includes information on the deceased and their relatives. The standard funeral program size is 8.5 x 11 inches.

A 16 x 20 inch (40.64 x 50.8 cm) portrait is the ideal size picture for a funeral service to display by the casket. You can also use a 14 x 18-inch picture frame to display on the altar.

Funeral Invitation

The typical funeral invitation size that is most commonly used is 5 x 7 inches, or 12.7 x 17.78 cm. You can give the funeral invitation to the most influential people in the life of the deceased.

The photo of the deceased as well as a very brief statement that may be instantly conveyed are frequently included in funeral flyers. You can use the 8.5 x 11 inch legal paper size.
