

Portfolios help professionals collect their work and achievements to demonstrate their skills to those who seek them. Portfolios serve as an avenue to promote and advertise one's business and expertise which can be quite beneficial for obtaining clients or as a means to win a business deal.

Portfolio Definition & Meaning

A portfolio is a thin, large flat case where one can store papers, drawings, and other documents.

This means people use these to gather a collection of their work so they have proof of their skills in one place.

What Is A Portfolio?

Professionals and businesses would need an avenue to present their products, services and skills to their clients and partners and one way to do so is by providing a portfolio. Portfolios are a thin case where artists, writers, and skilled workers can keep a collection of their work be it drawings, documents, certificates, articles, etc. This is usually presented to an employer who can look through the portfolio to determine if the owner fits the bill for employment.

10 Types Of Portfolio

Student Portfolio

[Student portfolios](#) are used by students who are applying for internships and part-time jobs. They can store their resume, certificates, grades, awards, and other relevant documents. This can help students showcase the skills they already have to potential employers.

Website Portfolio

[Website portfolios](#) are used by software designers and programmers, to showcase their skills in web design and development. For example, your portfolio can have certificates and photos of the web designs you have created. This will make you an appealing candidate for employers who check your portfolio and perhaps get the job you've always wanted.

Photography Portfolio

[Photography portfolios](#) are used by photographers and designed to store photos that showcase the skill of the owner. Portfolios are quite common for photographers since clients would want to check and catch a glimpse of their work before hiring them. For example, if you are a wedding photographer, you can place photos of weddings you have been to and don't forget to add unique shots to make your work stand out from the rest.

Fashion Portfolio

[Fashion portfolios](#) are filled with images of models, as well as sketches of clothes. These are commonly used by models and fashion designers while job hunting as a way to promote their image and fashion sense. Photos of dresses and models on the runway are usually present in this document which often reflect how versatile they could be.

College Portfolio

[College portfolios](#) are specifically used by students when applying for college. It contains documents like certificates, diplomas, and grades. A well-created college portfolio will help you stand out and can assure yourself of impressive school admission.

Digital Portfolio

[Digital Portfolio](#) is used online for a website and is used to gather digital works such as online art, file documents, and other kinds of templates. It is usually used by artists, writers, and other creatives who work online. It is advisable to keep backup copies of digital portfolios.

Work Portfolio

[Work portfolios](#) are used by people who want to demonstrate what they are currently doing with the work they have. This type usually includes photos, certificates, and other work-based documents. This is also perfect for presenting your work to prospective employers.

Interior Design Portfolio

[Interior design portfolios](#) contain photos, plans, and blueprints for everything related to interior design. It is used by interior designers to present their ideas to clients and a means to promote their business. These portfolios contain the best work of the designer or is used as reference to the design the client has envisioned for their property.

Personal Portfolio

[Personal portfolios](#) is a tool an individual uses to keep and save their work and profile. This is usually used by artists who create their work as a hobby. It is designed to specify the personal needs and creativity of an individual.

Portfolio Uses, Purpose, Importance

Portfolios are created by individuals and businesses as a way to showcase their skills and their best works. It may be used by clients to determine whether to hire a company so there is a need to enhance one's portfolio before these are presented. So, before creating portfolios to showcase your accomplishments, understand how they are used, what their purpose is, and why they are important.

Highlighting One's Work

You might have done some impressive work, and who wouldn't want to show their best? With a well-organized portfolio, you can do just that. By compiling all your best work in one collection would give its viewers an overview of your accomplishments.

Showcasing Skill

Having a series of works in one case, lets people know how skilled you are at your particular line of work. This can prove to potential clients and employers that you are the best choice. This will also help them decide whether to hire you or not.

Stand Out Among Applicants

When applying for a job or trying to obtain a new client, you need to show them something that will help you or your business stand out from the rest. Having a well-organized portfolio enhances you as a candidate for a job opening, and makes you stand out among the other applicants. This means with an impressive portfolio, you're very likely to get a shot at employment.

Show Organizing Skills

The very act of arranging a portfolio, demonstrates to employers that you are keen at organizing your work which is a very important soft skill to have in any profession. This offers readers a glimpse of how well you are not just with your work and the skills you have presented but how coordinated you are. This can be also viewed as a creativity in your part which is a plus point for every applicant.

Proves Work Ethic

For every amount of work you have in your portfolio, this can prove what type of work ethic you have. Work ethics is an essential feature which can be used by clients and employers alike to choose a candidate. This is a good thing for employers to figure out while looking at your portfolio.

What's In a Portfolio? Parts?

Cover Letter

The cover letter tells readers about the owner of the portfolio and what its contents are about. This helps introduce to the readers what they are going to see before looking through the portfolio.

Table of Contents

The table of contents is a preview for readers of what the portfolio contains. This allows readers to easily find the pages or sections of the details they are looking for.

Entries

This is the main content of the portfolio so to speak. This is documents and features the skills and progress of the author in an organized and coordinated manner.

Dates

For additional organization, it is important to include the date in the entries to make sure the readers have a reference on. They will be able to view which works came first and which ones were the most recent.

Drafts

Early and revised drafts are also included in the portfolio to show the progress of the author's skills. This is great opportunity to check on how well its creator has evolved with their skills and expertise.

Cover Letter

Letter From The Editor

January 8, 2020

Dear reader,

Happy January to all of you and welcome to this month's catalog. It's a brand new year for us in our little photography studio. For the new year, we want to introduce our photography portfolio taken from nature.

We would like to give a big thank you to our mother earth for the place and views she has given us. To appreciate this further, part of each purchase of our catalog will be donated to wildlife conservation groups and environmental foundations. Have a great new year, through!

Sincerely,
Diana Benkin

ANIMAL CIVILIZATION
By Stacy Colls

Honestly don't think that it's possible for that wild. They can come in troops and have their own systems where there is a leader or follow. In many ways, they are sometimes more cooperative with each other than human beings are.

We may still have a lot to learn about these animals and perhaps the wildlife photography we have captured can help you learn more about them. Browse around and see what you can find out. You really want to purchase any of these exclusive photographs and purchase them for your very own.

Portfolio Vs. Resume

Portfolios are thin cases that contain a person's works and are used to present one's level of skills to an employer that you submit it.

Resumes are written documents that list out the skills and job experiences of a person, made for an employer in an interview to gauge if an applicant is an ideal candidate.

What's the Difference Between a Portfolio and a CV?

A portfolio is a series of papers, documents, and works that are all gathered inside a small and thin case.

A CV is a written document of a person's previous work experience and consists of one page.

Portfolio Sizes

[Portfolio sizes](#) come in two types which are International Paper Sizes and US Paper Sizes. However, there are also other specific sizes that may fit your personal and business needs.

Portfolio Sizes

PORTFOLIO SIZES	METRIC	INCHES
