## **FAQs**

### **What Are the Components of a Poster?**

The components of a poster include the header/title, contents, slogan, pictures/graphics, logo, and product information.

### **What Apps Can I Use to Create Posters?**

There are different applications that people can use to create posters, including Microsoft PowerPoint, Google Slides, or Adobe Photoshop.

### **Is Creating a Poster Expensive?**

Poster designs from professionals start from 50 US Dollars to a little over 500 US Dollars, depending on the range of visual elements a client wants to incorporate.

### **What Are the Different Types of Posters?**

There is a variety of posters that companies can choose from, including promotion, event, concert, food, travel, wanted, family, and work posters, among others.

### **Are Posters Still Relevant?**

Posters are still relevant today, and organizations still use them to market or advertise products, services, and events to a larger audience, locally and internationally.

### **What Should a Poster Include?**

A poster must include essential information about what the company sells to its target audience.

### **What Are the Elements and Principles of a Poster?**

Posters must include elements that pique the curiosity of audiences, making them want to read or look at the contents of the poster, including color selections, design ideas, company message, attractive font, and overall impression of the audience.

## **What Are the Benefits of a Poster?**

Posters are one of the most recognizable and cost-effective marketing instruments that companies can use for audiences to recognize their brand.

## **What Are Standard Size Poster Frames?**

The standard-size poster frame measures 18 x 24 inches, similar to the size of a medium-sized poster.

## **What Does a Wanted Poster Look Like?**

Wanted posters include a sketch or photo of the person's appearance, the sum of the reward money, and contact information of where to report the sighting of the individual.
