Ticket Ideas

Tickets are easy to understand and use, and aside from their contents, the images and graphics make them more attractive to customers. To get you started, we've got a collection of ticket ideas and examples that will inspire you to create that perfect ticket that will fit you and your customer's needs.
Event Ticket Ideas and Examples

Tickets are used in most events, whether this would serve as an invitation or if these are for sale and they come in hard copies or virtual format. Only those who are invited or those who have paid for the ticket are able to enter the event. Event tickets come in different designs and colors just like this dinner event ticket where you incorporate images of the meal that is to be served.

Fundraising Ticket Ideas and Examples

Selling tickets is one way of raising funds for a cause that is common in most fundraising events. To help you get inspired, check out this fundraising luncheon ticket idea with its sleek but minimalist design that would fit the event's theme. You can outline the details of the event in the front portion of the ticket.

Concert Ticket Ideas and Examples

Attending a concert can be a fun and memorable event especially if you get to see a music band or dance group; even watching at home can be an exciting activity. This ticket would also make a wonderful gift idea for family and friends. With the help of this concert festival ticket example, you can develop a design that works well with the theme of the concert.

Science Ticket Ideas and Examples

Check out the science fair raffle ticket example to help you create and design a ticket for a science-inspired event. Raffle tickets are also popular in most events since this will help attract participants in hopes of winning a giveaway. You can also fashion this as an entrance ticket to be presented before entry.

Student Ticket Ideas and Examples

Classroom scavenger hunt activities, sports fest, spelling bees, and school plays are one of the many popular open house school activities. And to control the number of students and guests, it is important to distribute tickets. Check out this education raffle ticket example where you can design a ticket that best suits the theme for a school event.

Flight Ticket Ideas and Examples

Tickets are essential for international and domestic travel, and without them, you are unable to board a flight. These tickets are checked by an airline ticket counter, after which a boarding pass is issued. Check out this elegant airline ticket idea to help you properly include all the important details needed in this document.
Birthday Ticket Ideas and Examples

Some birthday events love doing raffles to make it a more fun activity for the guests. Take a look at this beautifully designed birthday raffle ticket idea to help you develop an inspiring concept. Birthday tickets could also be designed as meal stubs or slips which works well with buffet-style birthday parties.

Clipart Ticket Ideas and Examples

Need to create a simple yet compact ticket design? Then check out this blank ticket vector where you can construct your own concept with a touch of minimalism. You can use this ticket admission concept for museums, carnivals, and broadway.
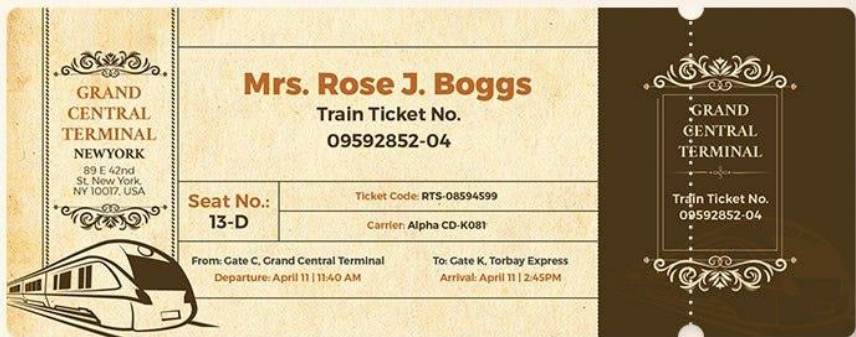

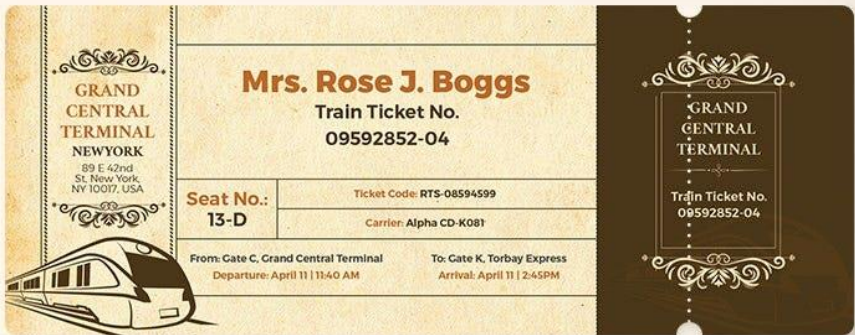

Wedding Ticket Ideas and Examples

Aside from the usual wedding invitation, wedding organizers would sometimes distribute something like a wedding dinner ticket. This is to make sure that only wedding guests are able to partake in the dinner event and this ticket usually comes with a stub. So check out this beautifully designed ticket for more inspiration.

Train Ticket Ideas and Examples

Like most public transportation, you need to purchase a ticket so you can take a ride. Trains are one of the most efficient modes of transportation. So to help you design one, check out this special edition vintage train ticket pass that you can edit in Photoshop or Microsoft Word.

FAQs

What are entry and exit tickets?

Entry and exit tickets are designed by a teacher to assess a student on a given topic.

Should exit tickets be graded?

An exit ticket is a form of assessment that a student has to complete at the end of the class, and it's neither a test nor a quiz; therefore, it's not meant to be graded.

What are tickets in coding?

Some tickets like vouchers and coupons display a unique feature such as a code in a form of a QR code or a magnetic strip that allows its holder access and this helps prevent fake tickets from circulation.
