

# Tickets

Tickets can get you to concerts, movies, plays, cities, and other tourist spots you want to travel or visit. For centuries, this little piece of paper has maintained its significance in today's society, giving everyone who owns one entry to a particular place or venue.

## Ticket Definition & Meaning

A ticket is a slip of paper commonly used to gain entry to an establishment or an event.

This is proof of your payment or invitation to join or partake in whatever activity the ticket applies.

## What Is a Ticket?

A ticket is like a voucher in the form of a card or slip which authorizes its holder access to a specific activity, engagement, or participation. It is commonly used in public and private events and in the travel industry. At the same time, tickets are issued to drivers violating traffic laws with a corresponding fine attached.

# 10 Types of Tickets

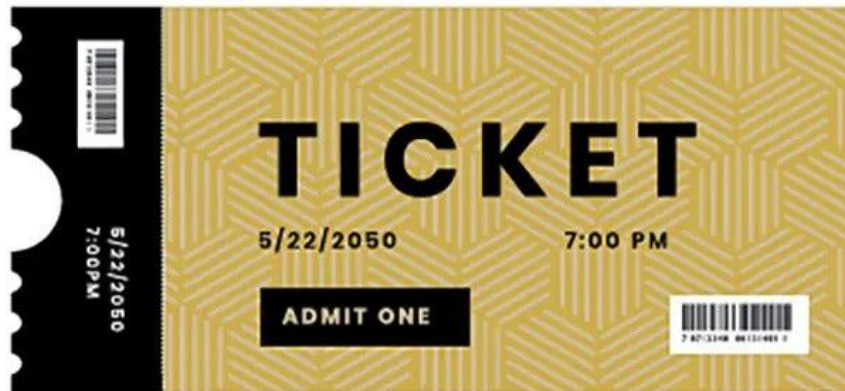

## Birthday Ticket

Aside from being an invitation, some birthday parties require a [birthday ticket](#) to give someone entry to the event. In some cases, tickets can serve both purposes. Perhaps it is one effective way to ensure that only those invited are allowed to join the party.

## Event Ticket

Tickets are essential for events, especially live concerts, contests, sports tournaments, etc. since this is a source of revenue for the organizers. [Event tickets](#) are usually sold to interested guests and are presented before being admitted to the venue.

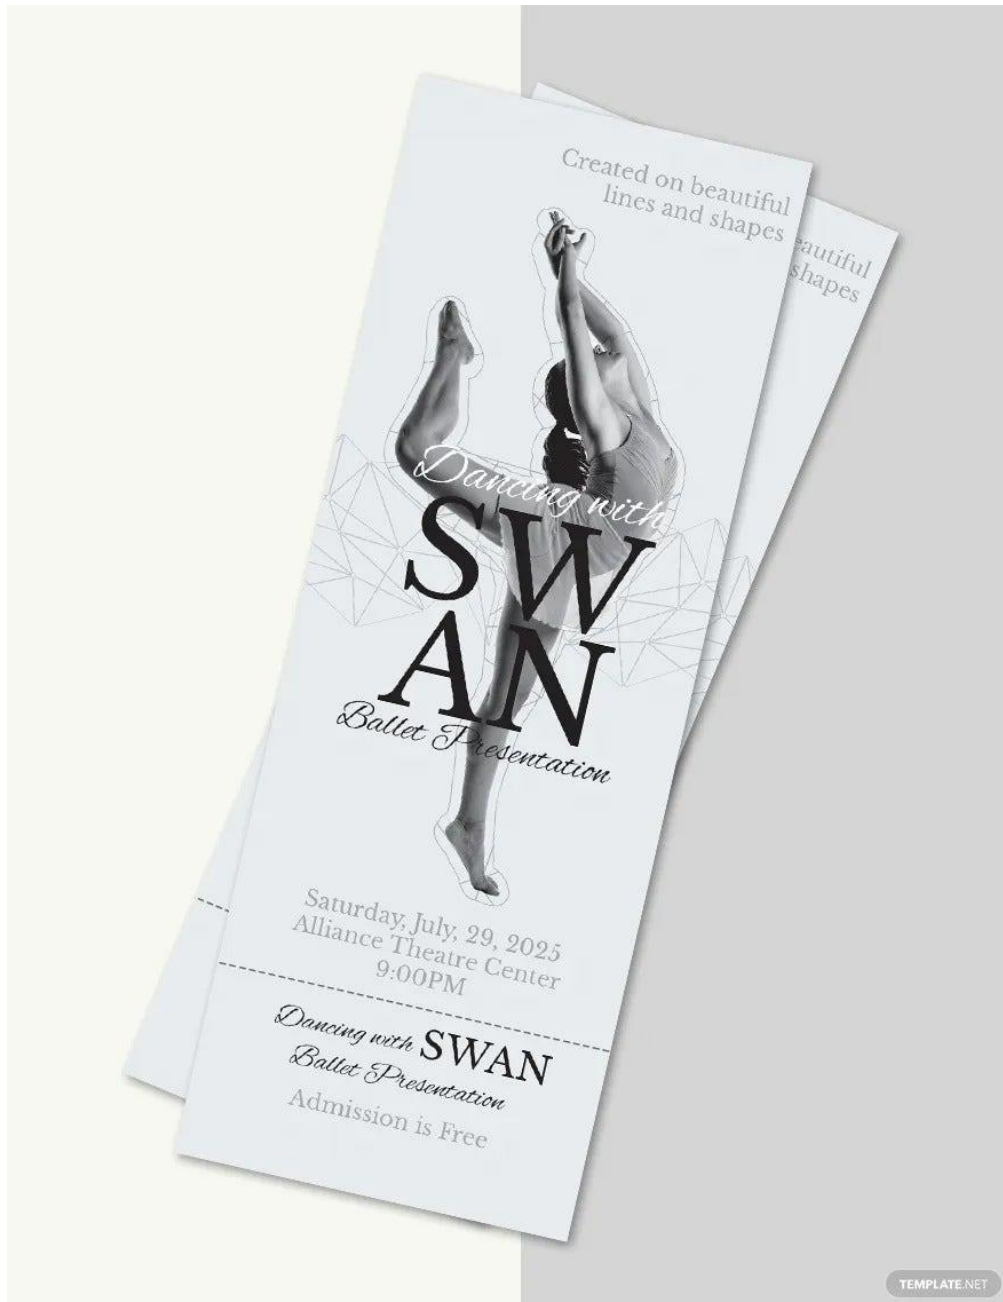

## Concert Ticket

Watching a music concert, whether online or live may cost a bit of money, so it is a requirement to pay for a [concert ticket](#). It is common practice for every show to sell tickets to control the number of guests, earn a profit and check if there is a need to open another concert date.

## Admission Ticket

[Admission tickets](#) are commonly used when you want access to certain areas, for instance, museums, plays, or parties that are openly inviting to the public. You can either buy an admission ticket or in some cases, this is given out for free.

## Movie Ticket

It's common practice to buy a [movie ticket](#) whenever you visit the cinema and for you to reserve a seat. Ticket sales help generate revenue, and the more tickets sold would mean the movie is a blockbuster. This kind of ticket often comes with a detachable stub.

## Exit Ticket

An [exit ticket](#) is normally used in schools where teachers assess how well students have understood their lessons. This provides a simple, practical, easy, and adaptable way to obtain actionable feedback for teachers from their students.

## Airline Ticket

Once a reservation is finalized, a passenger is issued an [airline ticket](#). You can present this document at the check-in counter. Airline tickets contain crucial information such as the flight itinerary, the passenger's name, and the airline company.

# Fundraiser Ticket

A [fundraiser ticket](#) is used during fundraising events such as walkathons or fun runs. Such events are held to raise funds for an important cause. Like other tickets of its kind, a fundraiser ticket often comes with a detachable stub.

## Parking Ticket

Illegal parking is frowned upon, so a [parking ticket](#) is issued when a driver violates parking rules. This kind of ticket is normally attached to the vehicle's windshield. Parking tickets are also used in car parks in which a driver can park their vehicle for a number of hours or days.

## Boarding Ticket

A [boarding ticket](#) is a document that gives passengers access to board a public vehicle, train, ship, or even an airplane. It contains a unique code that differentiates one passenger from another. Right after you check-in, this is presented prior to boarding the vessel.

# **Ticket Uses, Purpose and Importance**

Tickets may look like simple pieces of paper, but these are important to event organizers, entertainment, sports, and the travel industry.

## **Revenue**

A ticket is used by many organizations to sell their services. This is how they make a profit. To increase ticket sales, organizers often come up with intense marketing strategies.

## **Keeps Things Organize**

Without tickets, it would be difficult to keep track of people attending an event. Tickets are meant to keep things organized so businesses and organizers can determine the number of people in attendance and how they can manage the entire event.

## **Proof of Purchase**

Tickets are issued as proof of purchase and entitle their holder to admission and other benefits that come along with it.

## **Unique Identity**

Some tickets have their unique identity, which is beneficial to their holder; it helps distinguish the holder's benefits from another. For example, airline tickets are priced differently depending on the class. The more expensive they are, means passengers are entitled to better amenities.

# **What's in a Ticket? Parts?**

## **Company Name and Logo**

If the ticket is used for business purposes like for travel or admission to events, then the company/organizer's name and logo should be included.

## **Contents**

The main contents of a ticket should include details of the event, such as the date, time, and venue. Ticket tier, which identifies the class of the ticket, event name, and ticket validity if applicable.

## **Holder's Name and Details**

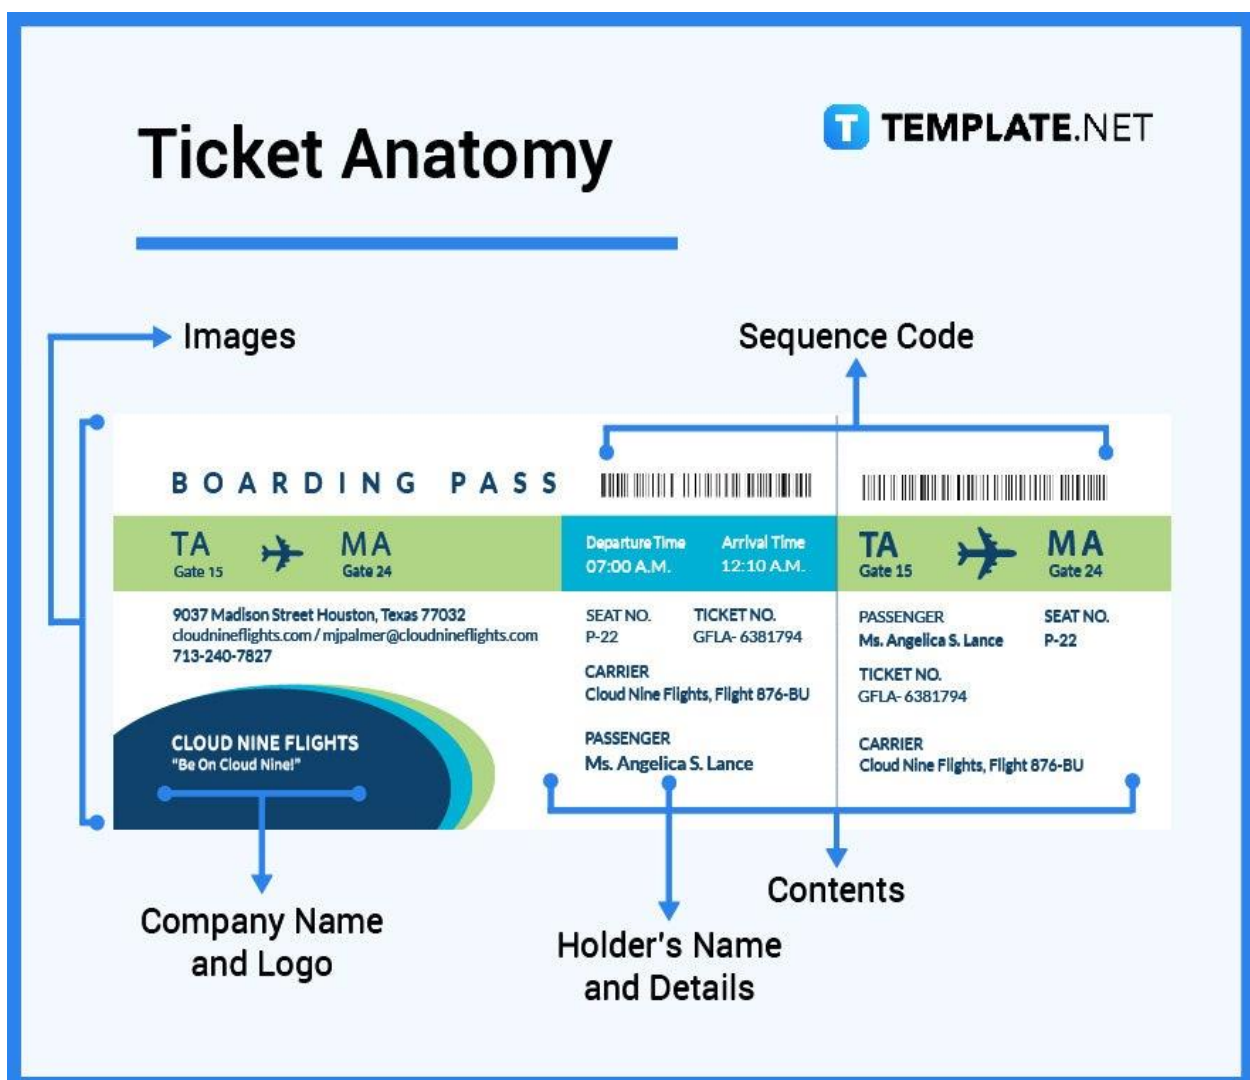

Some tickets would require the holder's name and other personal information in the ticket. This applies primarily to airline and boarding tickets, where passengers are thoroughly checked before entry.

## Sequence Code

Tickets must have a sequential code that is systematically assigned to each ticket.

## Images

Tickets are designed to have minimal yet attractive images and graphics, particularly for fundraising or other events.

# How to Design a Ticket?

Follow these steps below so you can create your own ticket:

1. Select a [ticket size](#).
2. Decide on the purpose of the ticket.
3. Choose a [ticket template](#).

# How to Design a Ticket?

---

1

Select a ticket size.

2

Decide on the purpose of the ticket.

3

Choose a ticket template.

4

Write down its contents.

5

Add images and designs to fit its purpose.

6

Finalize and print.

## **Ticket Vs. Receipt**

A ticket contains all relevant information that suits its purpose and serves as proof to gain admission.

On the other hand, a receipt is an acknowledgment that a transaction has been made, including details on the paid prices, the item or service purchased, and the transaction date.

## **What's the Difference Between a Ticket, Boarding Pass and Citation**

A ticket is a proof of purchase in which its holder is entitled to participate or enter an event, but this can be issued to those who have violated the traffic laws as well.

A boarding pass is issued to a passenger right after check-in, which gives its holder permission to enter restricted areas in the airport or a ferry terminal and eventually when boarding the aircraft or ship.

A citation is a more formal term but has more or less the same meaning as a traffic ticket issued by law enforcers to those who break traffic laws.

## **Ticket Sizes**

A ticket size normally fits a purse or a wallet, so to help you determine the correct dimensions that best fit your needs, here are the standard sizes commonly used in creating a ticket.

# Ticket Sizes

TYPE OF TICKET	SIZES
Raffle Ticket (w/ stubs)	5.63" x 1.97" or 14.3 cm x 5 cm
Event Tickets (w/ stubs)	1.97" x 5.63" or 5 cm x 14.3 cm
Tickets without stubs	5.5" x 2.125" or 14 cm x 5.4 cm
Roll tickets	1.83" x 2" or 2" x 3.25"
