

# Timeline Sizes

[Timelines](#) are a helpful tool that helps list milestones visually or incidents that lead to a specific achievement in both the past and the future within a particular type of arrangement, making it very important to find its correct size. Learn more about timeline sizes and discover how they vary from advertisement timelines, scientific timelines, brain timelines, COVID recoveries timelines, shipping timelines, and animal evolution or history timelines to personal timelines, detailing a human baby's first steps to their passing through this article.

## Timeline Sizes Standard

### Standard Horizontal Timeline Size

The standard size of a timeline that is horizontal is 1200 × 620 pixels or px, or 11.25 × 20.63 inches or in. This is done so that the timeline can accommodate more images, headers, and texts without sacrificing the overall resolution of said images.

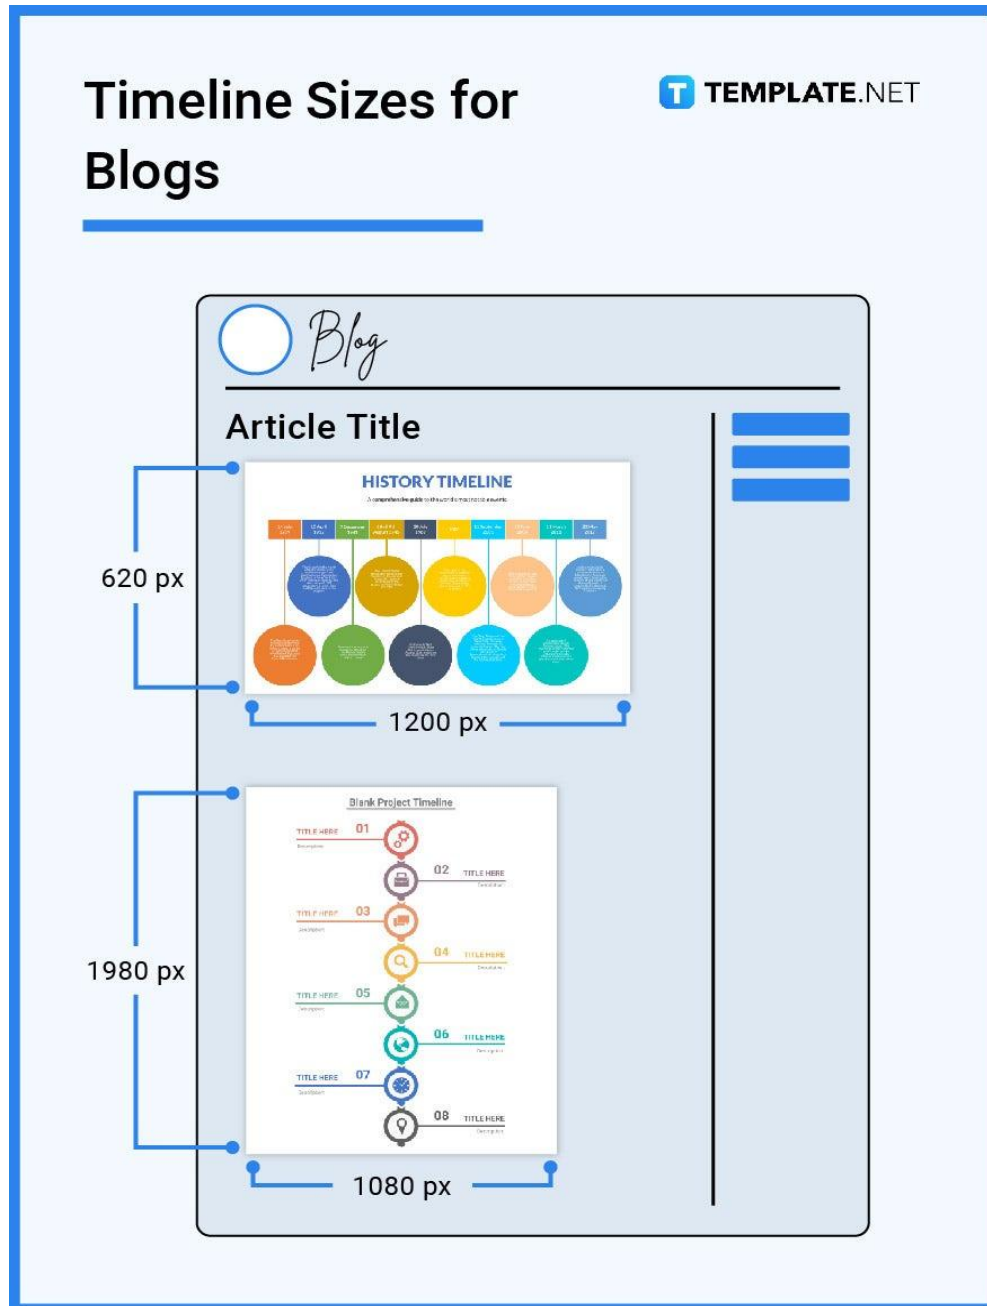

### Standard Vertical Timeline Size

A standard vertical timeline is sized at 1080 × 1980 px or 11.25 × 20.63 in. This is to ensure that the timeline has enough space for pictures, and texts without needing to adjust the resolution of most of the pictures and texts.

# Timeline Sizes for Digital - Social Media

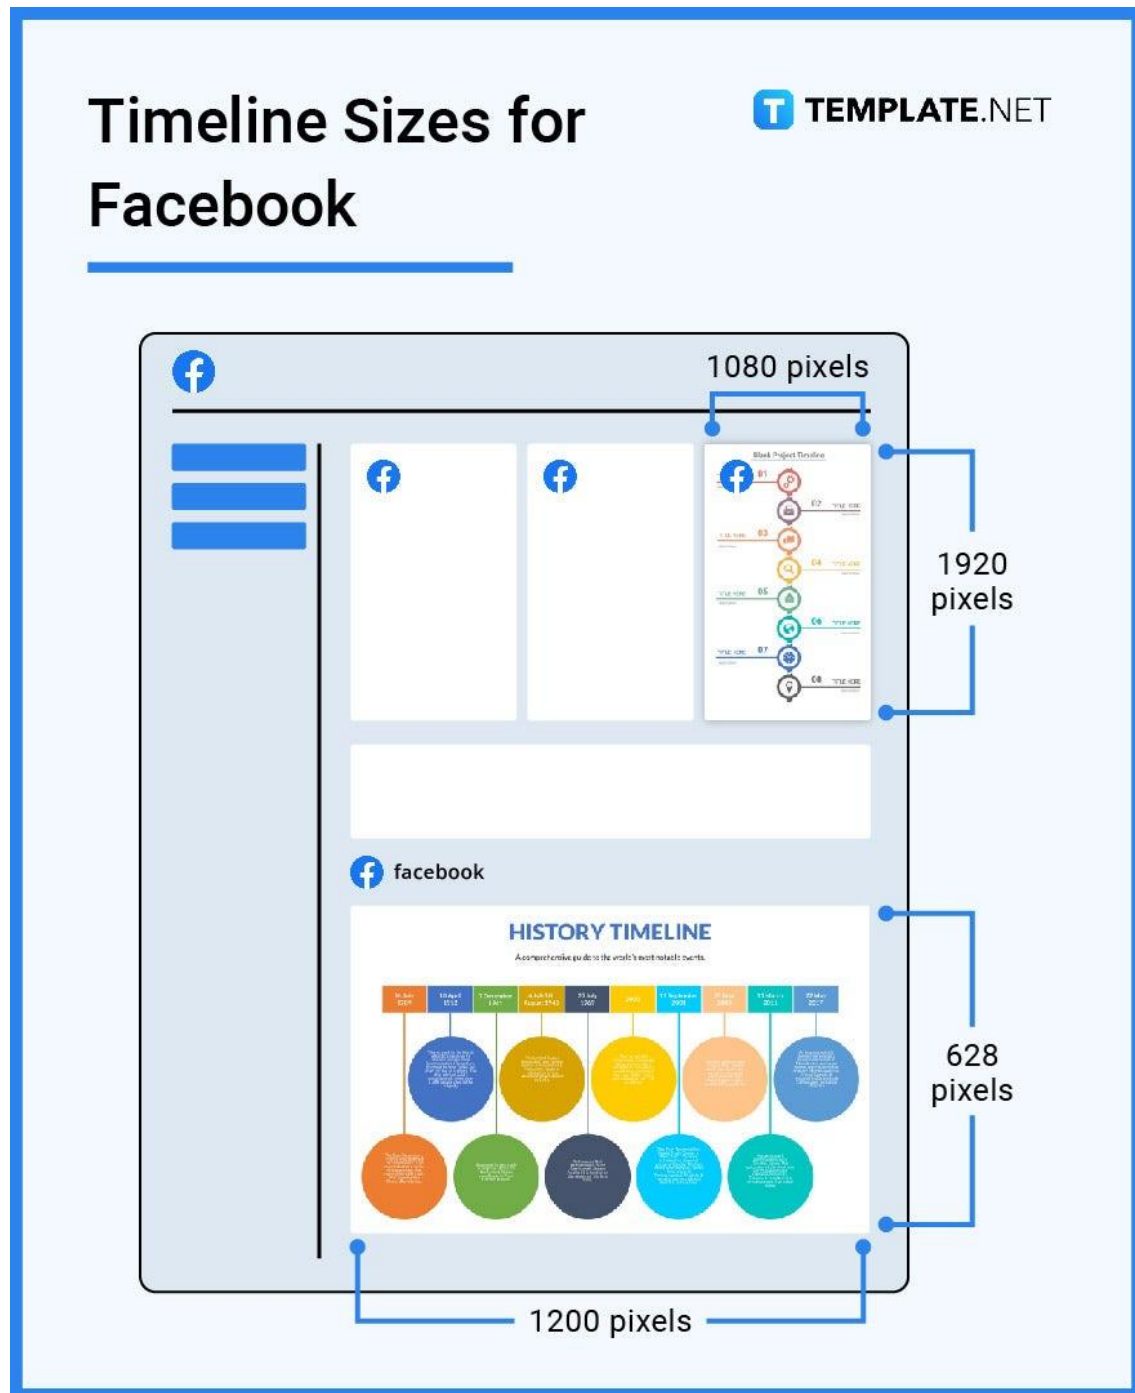

## Timeline Sizes for Blogs

If you are looking to post or link a timeline to your blog and want it to be readable. Then it is best to use the proper standard size of a timeline based on the orientation you are planning to make. These are 1200 × 620 px for horizontal and 1080 × 1980 px for vertical.

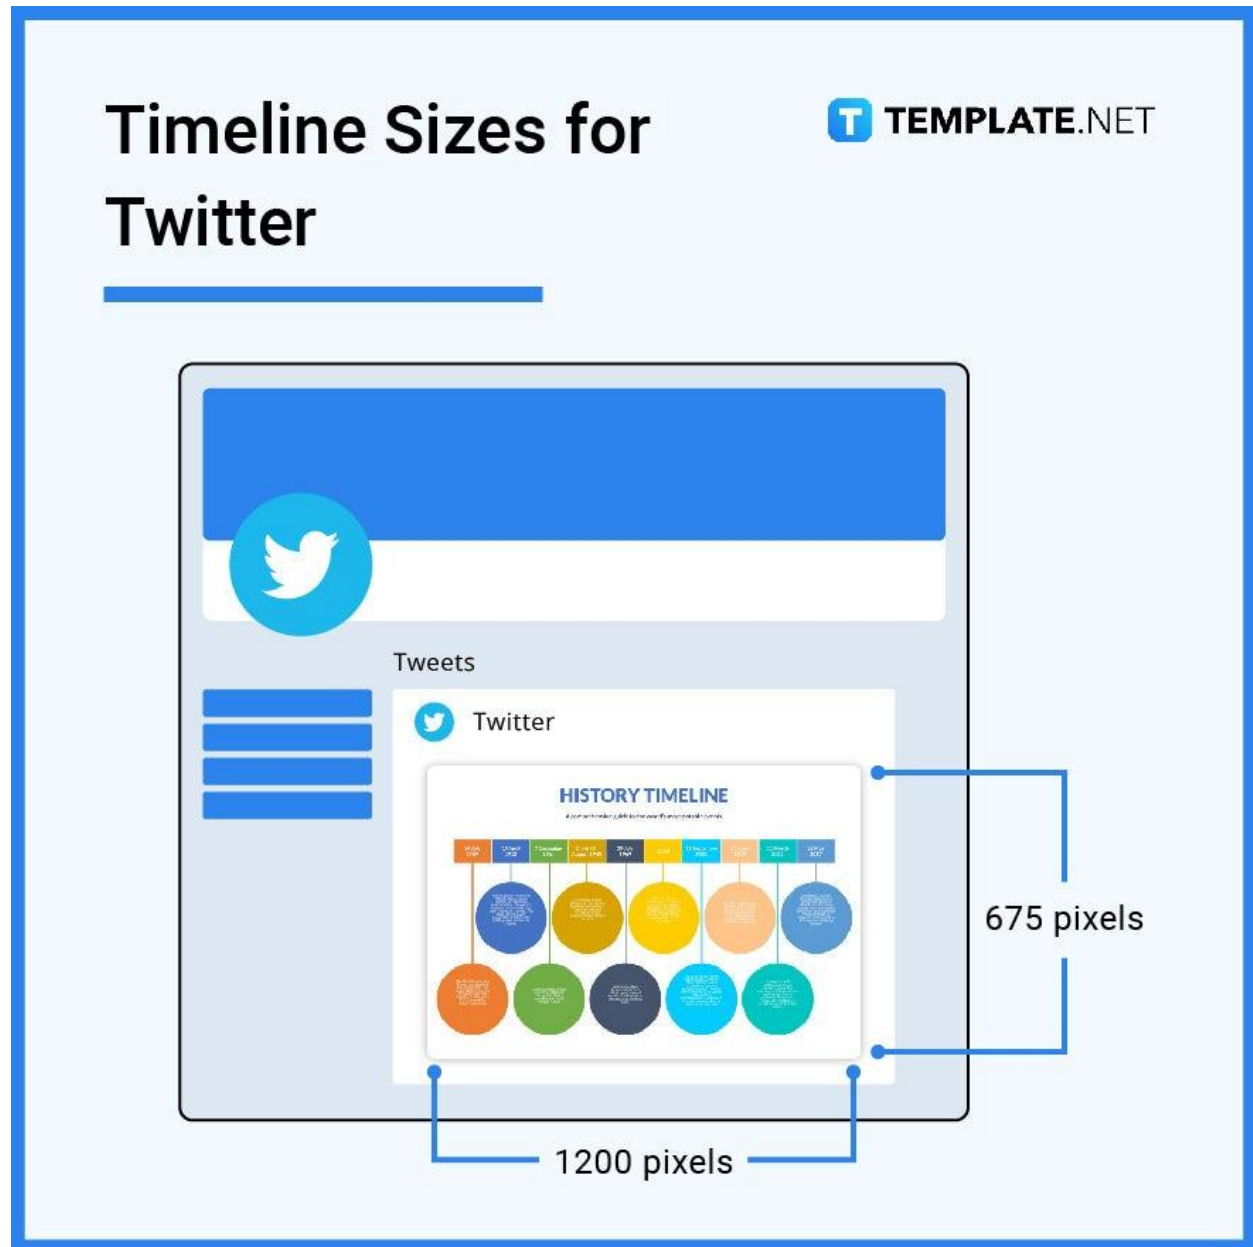

## Timeline Sizes for Facebook

There are different types of posts you can make on Facebook, one being a shared post image or a photo, and the other is a Facebook story. To ensure that they are posted at the maximum quality it is best to size the timeline as 1200 × 628 px for a photo, while a Facebook story should be sized at 1080 × 1920 px to accommodate the 1.19:1 ratio.

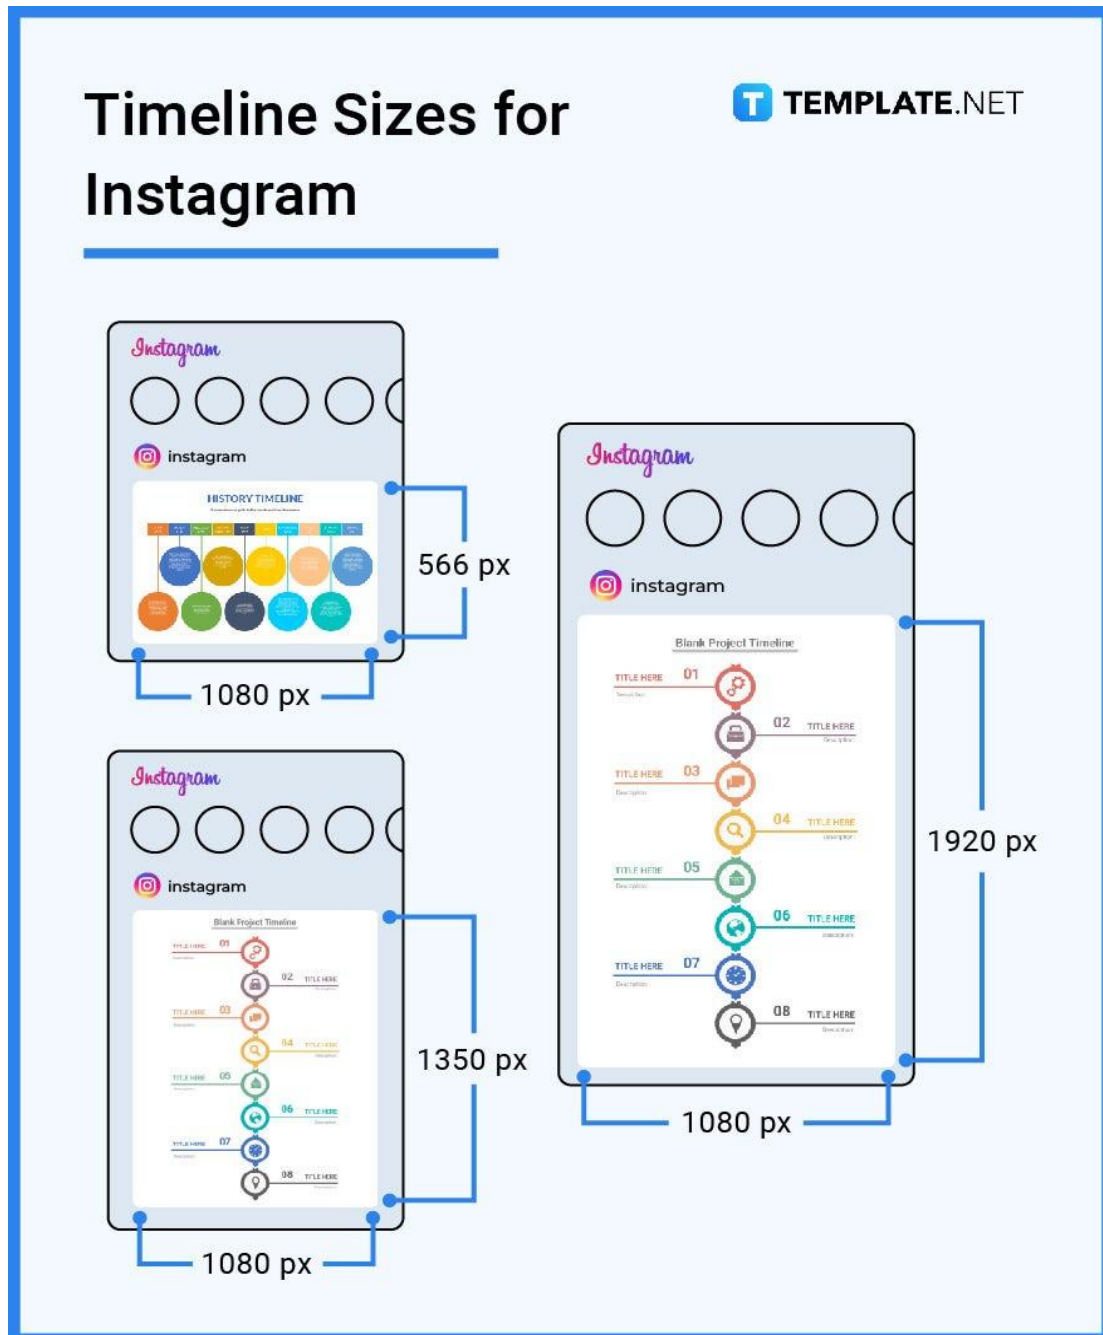

## Timeline Sizes for Twitter

The best way to post a timeline on Twitter is to size it at 1200 × 675 px to fit the ratio of 16:9. This is so that the thumbnail of the timeline is not stretched or squeezed when previewed on your Twitter page.

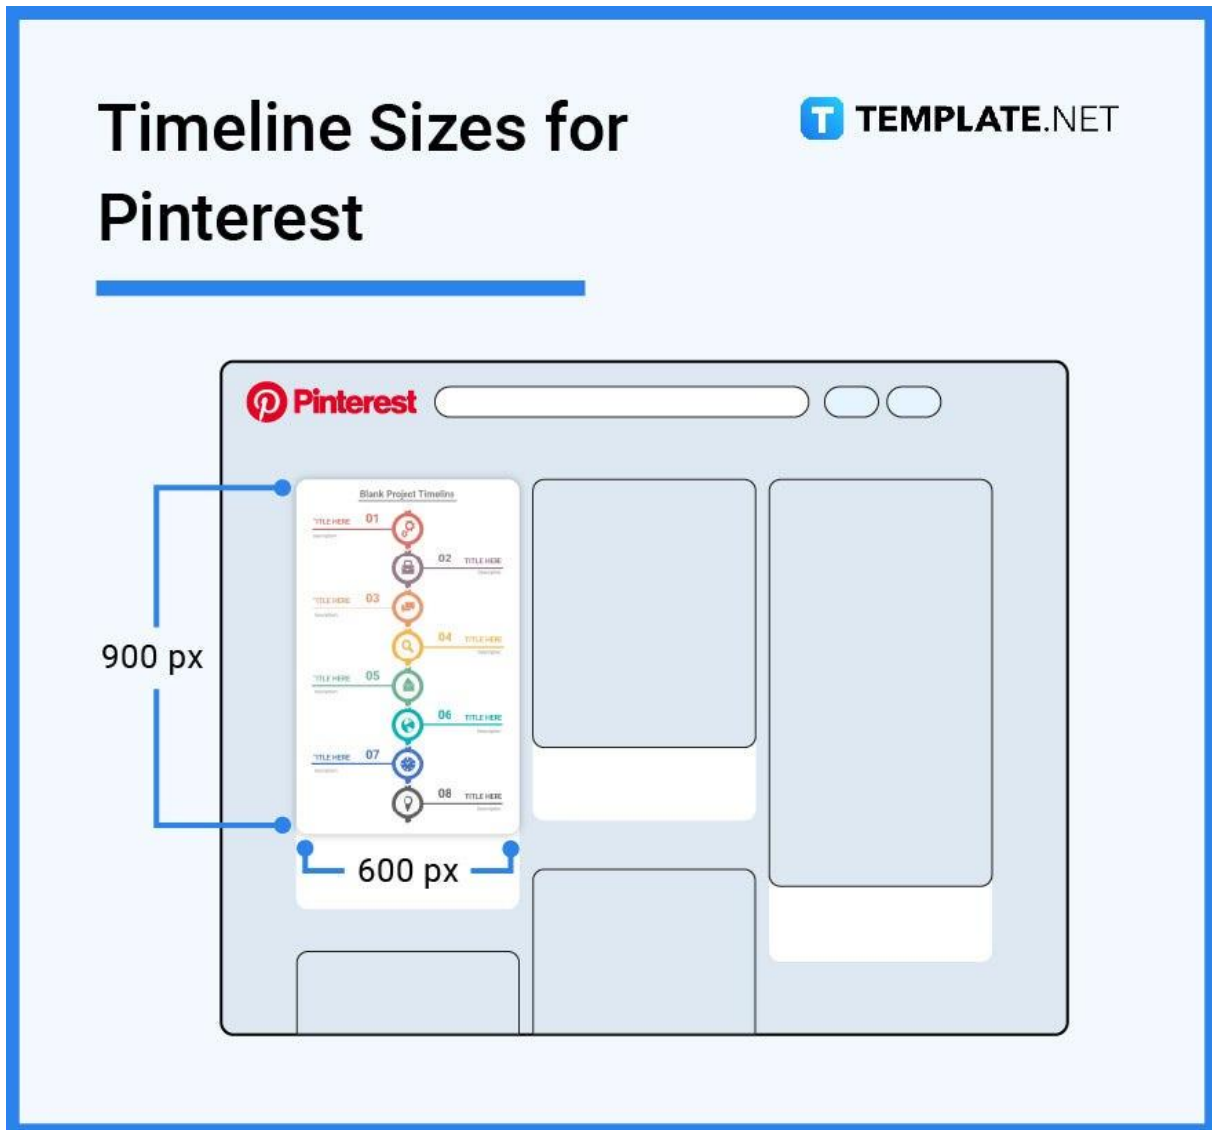

## Timeline Sizes for Instagram

Instagram can accommodate various types of sizes for a timeline. When sharing a horizontal timeline it is best to size it as 1080 × 566 px but if you are planning for a vertical timeline then the size should be 1080 × 1350 px. Alternatively, if you are posting a timeline to an Instagram story it is best to use the size of 1080 × 1920 px. This is to ensure that the pics can be viewed at the highest resolution whether it is viewed on the iPad using the Instagram app or on a PC on the Instagram website.

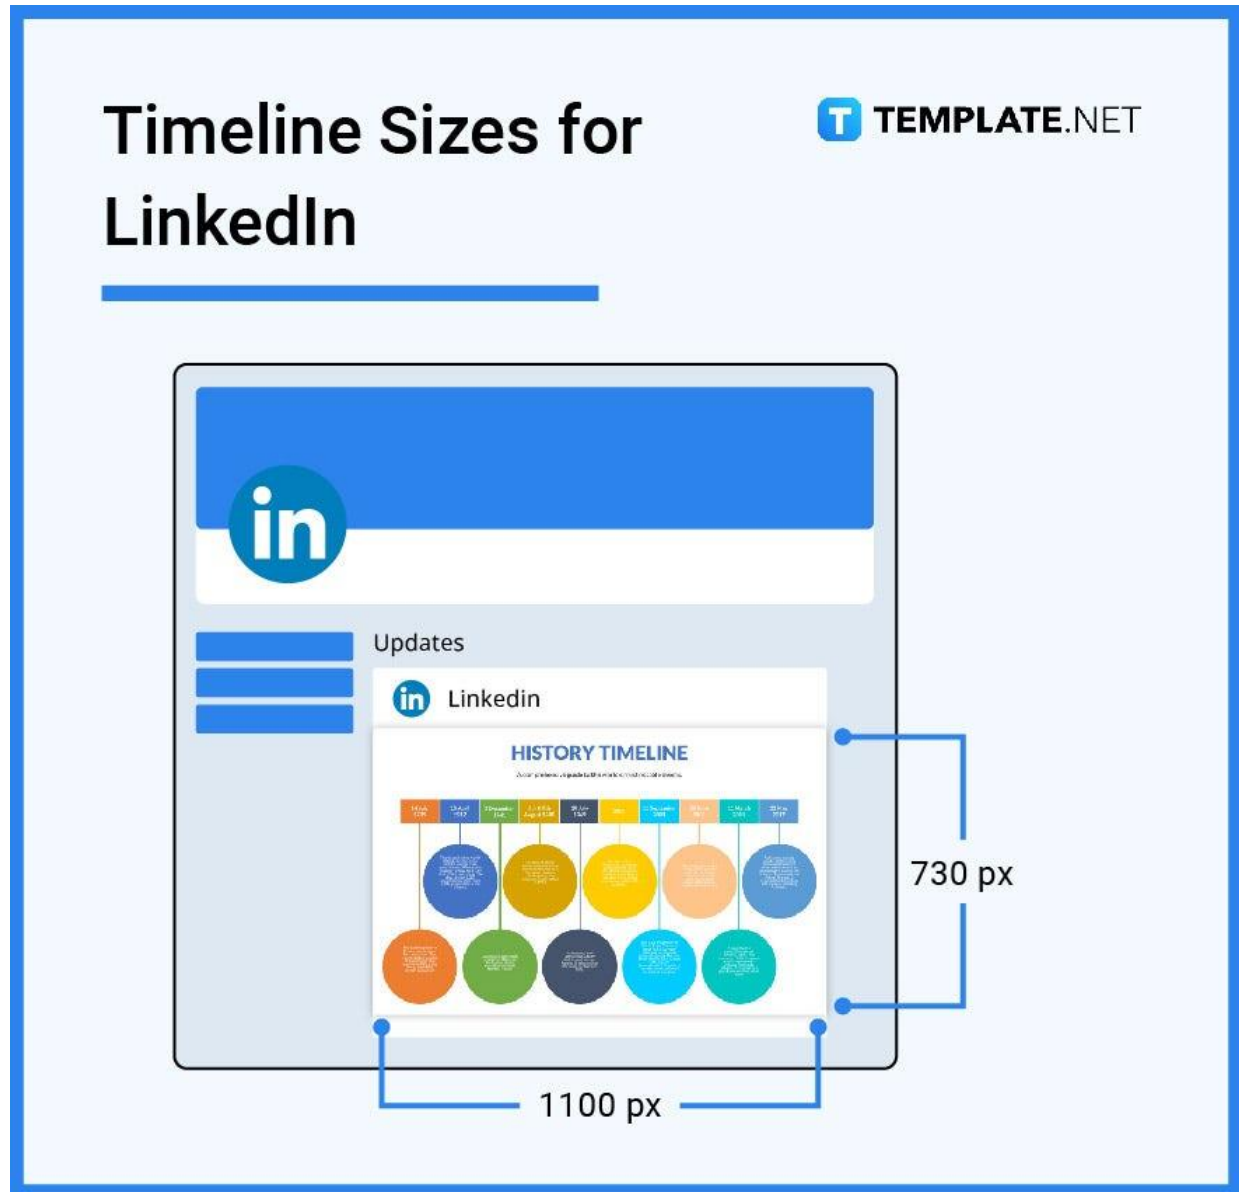

## Timeline Sizes for Pinterest

Timelines are hard to post on Pinterest because of the way the site cuts off long images. It is best to size the timeline to 600 × 900 px to ensure that it gets the attention of the viewers whilst not being cut off by the site.

## Timeline Sizes for LinkedIn

LinkedIn can be used to help market a business and a brand so it will be important to post a timeline of the life of the business on that site. The best size to post a timeline on LinkedIn is 1100 × 730 px, and don't forget to insert or add a banner or a logo of the business when making the timeline.

## Timeline Sizes for Print

When printing a timeline it is important to keep in mind the different sizes of paper one is going to print it in. A timeline should be sized at 8.3 × 11.7 in while an A3-sized paper is sized at 11.7 × 16.5 in. But if one is using photo paper it is best to size the timeline at 4 × 6 in. This is all done to ensure that the timeline is not cut or cropped when printed

### Timeline Sizes for Print

 **TEMPLATE**.NET

TYPE OF TIMELINE	SIZE(in)
A4	8.3" x 11.7"
