Discover how to make a PNG file in Adobe. That way you can save your image and make it ready for your own use.

How do I make a PNG file in Adobe?

Making PNG files can be done on both Adobe Photoshop and Illustrator. For the purpose of this case, we will use Adobe PhotoshopYes, you can actually do that as another way to convert image files to PNG.

How do I make a PNG file in Adobe?

Making PNG files can be done on both Adobe Photoshop and Illustrator. For the purpose of this case, we will use Adobe Photoshop
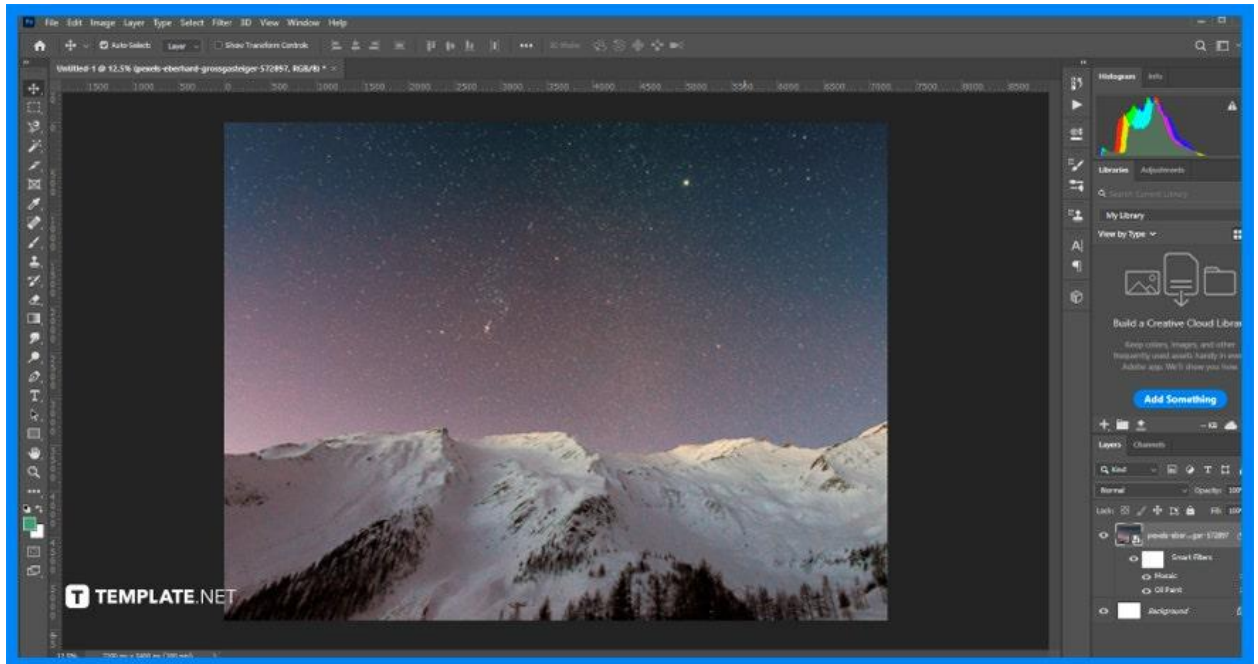

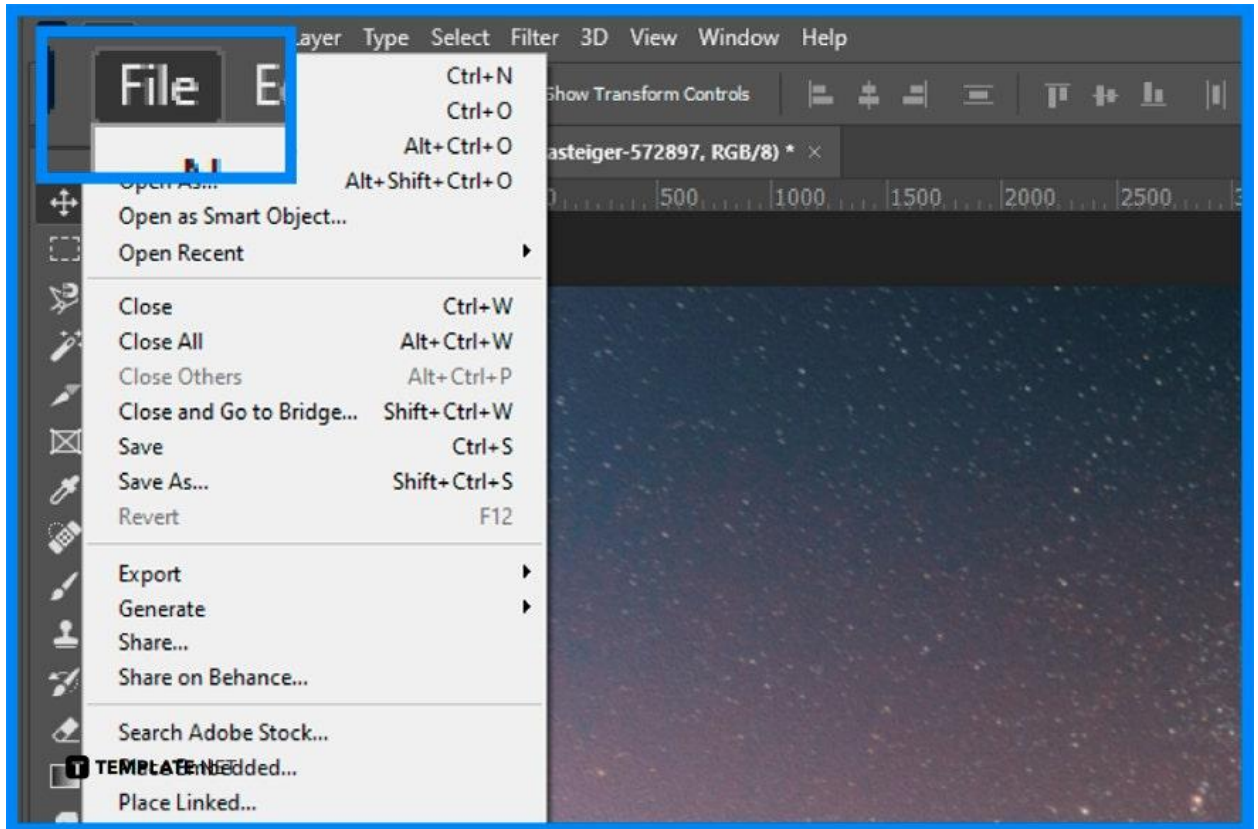

- **Step 1: Make your content**
  There's not much to make out of a PNG file if there's nothing to look at, so get going
 with your image content!

- **Step 2: Click 'File'**
  Move your cursor to the menu bar and click on the word 'File'. A dropdown will then appear.
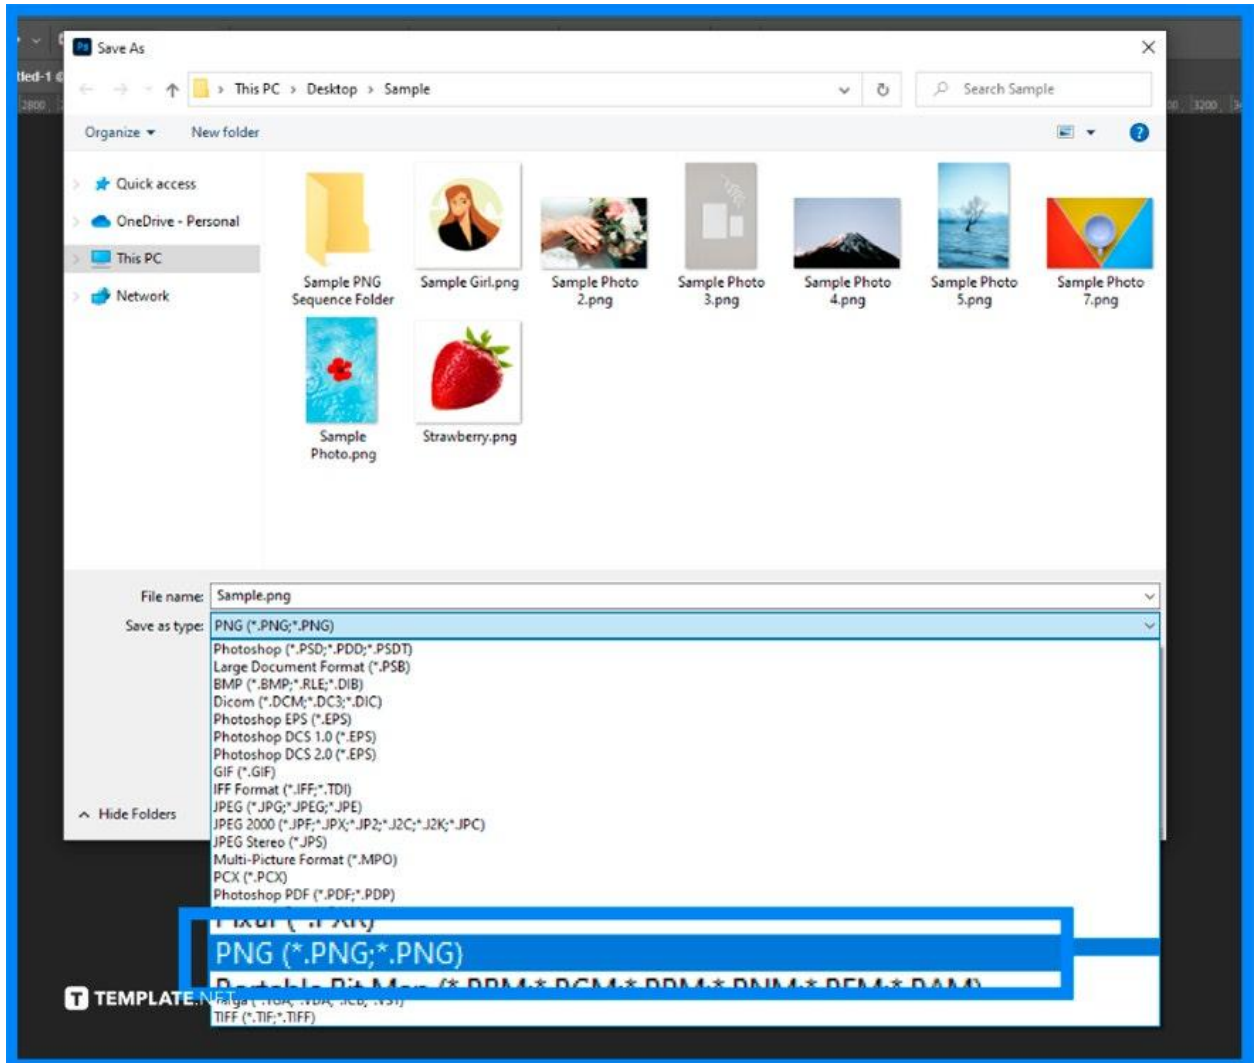

- **Step 3: Click 'Save As'**
  Scroll down on the dropdown and click on 'Save As'. It will open a dialog box.

● **Step 4: Choose PNG and click 'Save'**

Lastly, choose the format PNG on the dropdown box on the lower part of the dialog box. Once you have chosen it, click on the 'Save' button and you are all set!

You can also do the same thing with Adobe Illustrator.
