## How to Insert Page Numbers in Adobe InDesign

Discover how to insert page numbers in Adobe InDesign. That way you can label the pages of your works like brochures and booklets that you have made in the program.

## How to Insert Page Numbers in Adobe InDesign

Inserting page numbers take only a few seconds. Open your Adobe InDesign file and follow these three steps.

## - Step 1: Find the Pages Panel

To do that, go to the Window at the menu bar and click on Pages at the dropdown. This will open a Pages Panel at the side of your InDesign file. Move your cursor there and double-click on the Master Pages option.

## - Step 2: Select Textbox Tool and click ‘Type’

Next, select the Textbox Tool at the toolbar and create a text box on the part of the page where you want to insert the page number. Then click on 'Type' at the menu bar and click on 'Insert Special Characters at the dropdown, followed by 'Markers' and 'Current Page Number'.
